

PNEBD International Company Profile

International Project Management | Infrastructure Development | Healthcare Program Management | Oil & Gas Projects | Mining & Aggregates

Corporate Overview

PNEBD International is a global project management and strategic development firm supporting complex projects across healthcare, infrastructure, commercial real estate, oil and gas, aggregate, mining, energy, logistics, and public-private partnership programs.

Core Capabilities

Program governance, stakeholder coordination, budgeting, scheduling, supplier alignment, project controls, risk management, investor reporting, and execution support from concept through operations.

Global Focus

North America, South America, the Caribbean, Africa, Europe, the Middle East, and emerging international markets.

Leadership

Led by Paul McLennan, an international business development and program/project management executive with experience across healthcare transformation, technology, infrastructure, mining, energy, commercial development, and strategic partnerships.

Partner Engagement

PNEBD works with project sponsors, investors, government stakeholders, suppliers, operators, engineering firms, and development partners to move high-value opportunities toward disciplined execution.

Sector	Focus
Healthcare	Facility development, healthcare transformation, IT and program management
Infrastructure	Ports, roads, utilities, public works, logistics and development platforms
Oil & Gas	Fuel distribution, storage, midstream support and supply chain projects
Mining & Aggregates	Quarry development, material sourcing, export logistics and offtake coordination
Commercial Real Estate	Mixed-use, hospitality, industrial, data center and asset development
